👤 Profile

Passionate Full-Stack Web Developer specializing in React and Node.js. I thrive on building dynamic, user-centric applications that bridge the gap between intuitive front-end experiences and robust back-end functionality. Always eager to learn and adapt, I bring a collaborative spirit and a problem-solving mindset to every project.

📁 Professional Experience

iCog Labs (Internship) 08/2024 - present

Full-Stack Web Development

- Built and refined a Svelte frontend, focusing on creating smooth, user-friendly interfaces.
- Balanced work across both frontend and backend, with a strong focus on making the user experience as intuitive as possible.
- Worked on an AI project, helping to integrate smart features into the application.

Ale Interior Design 02/2024 - present

Frontend Web Developer

- Designed and built responsive user interfaces with React, handling the entire front-end process from start to finish.
- Integrated Sanity CMS to make content management easy and efficient for clients.
- Focused on creating fast, scalable websites that delivered great user experiences.

Vega 04/2024 - present

Mobile App Developer

- Developed a React Native mobile app with a focus on smooth and responsive user interfaces.
- Handled both frontend and backend tasks to ensure seamless app performance.
- Integrated APIs and optimized features for better user experience.
